Section 3 connects the Crooked Billet roundabout to Stanwell Moor Road using quiet residential routes. This route then links to Park Road (section 4).

Section 3 represents a direct route for cyclists and pedestrians from Staines to Stanwell Moor and onwards to the Heathrow complex.

There is already a shared path along Stanwell Moor Road which could be improved.

**IMPROVEMENTS COULD INCLUDE**

- Upgrading the existing shared path by widening it and re-surfacing it.
- Putting a crossing in along Stanwell Moor Road, where the shared use path switches to the other side. Current road speeds are fast and traffic can be heavy making it difficult to cross this section safely.
- Improving directional signing towards places where people work such as the Heathrow terminal complex.
- Providing a controlled pedestrian crossing facility at the signal junction with Park Road. This would also help people using the bus stops to cross the road.

**KEY**

- Improvement for cyclists
- Improvement for pedestrians

**Overgrown shared use path**

Wider Staines Sustainable Transport Package: Stanwell – North Ashford – Staines
