

What's happening?

Work to reduce congestion and journey times at the Meadows roundabout near Camberley is due to get underway shortly.

To minimise congestion and delays during the main works, most activity – such as lane closures – will take place at night.

The works are expected to take about one year, and include:

- Creating a new right turn from the A30 in Blackwater so drivers can head on to the A331 southbound towards Frimley and the M3 without using the main roundabout
- Lengthening the queuing lane for drivers approaching on the A331 from Frimley and the M3
- New traffic lights with better timings so drivers can go around the roundabout in less time
- Improving the crossings for pedestrians and cyclists

Who's carrying out the work?

The council's contractor Mildren Construction will be carrying out these works on our behalf.

Keep up to date

To receive regular updates and to view detailed plans visit www.A331.today. You can also get updates straight to your inbox by signing up for monthly e-newsletters. To receive these just enter your email address in the box on the A331 webpage.

There will be printed progress updates delivered to local residents every three months.
