# Surrey COVID-19 Summary

## Cases and Rates

For more detail please see full report at [www.surreycc.gov.uk/covidcases](http://www.surreycc.gov.uk/covidcases)

From 31 January 2022, UKHSA have moved to an episode-based definition of COVID-19 cases. They now count individuals each time they have a new infection, previously cases were deduplicated. This change has been backdated for the entire pandemic. For further detail on how UKHSA define a reinfection, please see [coronavirus.data.gov.uk](http://coronavirus.data.gov.uk)

### Daily Cases

Change\*\*

New cases in last 7 days

16,098

Rate for the last 7 days\*

1,341.6

Data shown for time period Sunday 23 January 2022 to Saturday 29 January 2022

\*Rate represents number of cases per 100,000 population for the last 7 days  
\*\*Changes are relative to the previous 7 days (16 January - 22 January). If there is an increase of less than 10%, a grey arrow will indicate that the rate may have plateaued, but is not showing a significant rise or drop

All data is publicly available. Data is shown by specimen date - reporting delays mean data can be incomplete for the most recent days. For this reason the data shown is for the seven-day period ending four days prior to the publication date. The rate is calculated daily by Surrey County Council Public Health data intelligence team using the ONS 2019 mid-year population estimates. The 7-day average line on the chart is calculated using the average of cases for three days before, the date itself and the three days after any specific date. The average is not calculated for the most recent three dates as there is not enough data. For more detail please refer to the Surrey COVID Intelligence Summary at [www.surreycc.gov.uk/covidcases](http://www.surreycc.gov.uk/covidcases) and [coronavirus.data.gov.uk](http://coronavirus.data.gov.uk)

# Hospital Admissions

There were **1,546** people admitted to hospital with COVID-19 in the last 7 days (23 January 2022 to 29 January 2022) in the South East. This is **231** more admissions than the previous week (16 January 2022 to 22 January 2022 ).

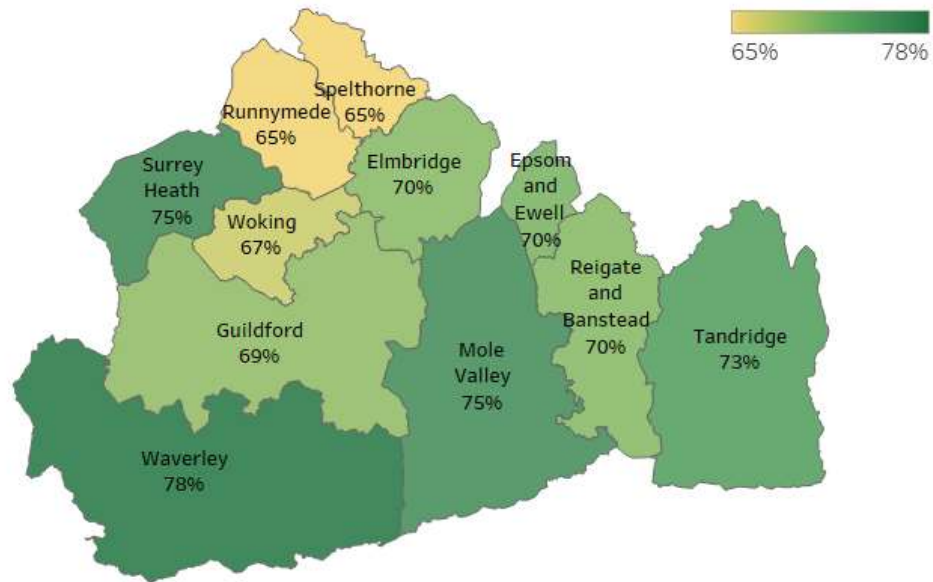

For a breakdown of hospital admissions by NHS Trust please see full report at [www.surreycc.gov.uk/covidcases](http://www.surreycc.gov.uk/covidcases)

For a breakdown of vaccinations by cohort, please see full report at [www.surreycc.gov.uk/covidcases](http://www.surreycc.gov.uk/covidcases)

# Vaccinations

Data up to 30 January 2022

Percentage of 18+ population who have had a booster or third dose of a vaccine

|                      | First dose uptake (Ages 12+) | Second dose uptake (Ages 12+) | Booster/Third dose uptake (Ages 18+) |
|----------------------|------------------------------|-------------------------------|--------------------------------------|
| Elmbridge            | 83%                          | 77%                           | 70%                                  |

| Woking               | 83%                        | 77%                         | 67%                                |
| Surrey               | 85%                        | 79%                         | 71%                                |
| South East           | 84%                        | 79%                         | 69%                                |
| England              | 80%                        | 74%                         | 62%                                |

**Note:** For more information on who is eligible for a vaccine please see [NHS COVID-19 Eligibility](#)

All data is publicly available at [Government Coronavirus Dashboard](#)

Vaccination figures are presented by date of vaccination as recorded on the National Immunisation Management Service (NIMS) database. Vaccination counts and populations by Lower Tier Local Authority (LTLA) are provided by Public Health England (PHE).
