Physical & Sensory Support (PSS)
Request for Involvement – FHE16+

Physical and Sensory Support (PSS) uses specialist knowledge to support children and young people (from 0-25+) with physical disability; difficulties with communication; hearing, vision and multi-sensory impairment.

When a young person over the age of 16 attends further education (FE) college, the college setting may have their own specialist in-house provision, or may prefer to buy in support from our traded service: PSS FHE16+

In this case, the **FE college learning support team** will contact the FHE16+ (post 16) team to request involvement.

Student details Name:
Date of Birth: Gender:
Main language used in the home:
Address: Student's Email: Telephone number:
