Horizon 2 SAFETY BARRIERS programme

No schemes currently prioritised

Horizon 2 MAJOR TRANSPORT SCHEMES programme

Scheme name	Location	Other information
Meadows Gyratory Improvements	Meadows Roundabout (junctions with A30, A331, A321 approaches)	<p>Works in progress. For the latest information please follow on the dedicated scheme webpage www.a331.today</p> <p>The improved Meadows Gyratory will reduce travel time across the junction and reduce circulating traffic. We will be installing new traffic signals and vehicle detectors. When completed the new signals will operate under ‘real-time’ urban traffic control. This means that the vehicle detector on the ground will continuously monitor traffic queues on all road sections at the gyratory and adjust the signal timings to minimise queues and reduce delays. The improvements include the provision of new and improved signal crossings and traffic islands to protect pedestrians and cyclists.</p>
