Please submit this form to the above email address by 5 July 2026.

Guidance Notes

- If your early years provision will operate for less than 38 weeks during academic year 2026/27 you **must** complete a custom term dates form.
- If your open dates are different to the Surrey funded dates, but you will still deliver 38 weeks funding over the year, you **do not** need to submit a custom dates form.
- If you do not intend to adopt the 2 week October half term but will still deliver 38 weeks funding over the year, you **do not** need to submit a custom dates form. In this situation you will receive funding for the 14th autumn week during summer term. Please ensure parents are aware of how funding is delivered at your setting. Consider and document your approach should a child leave before the summer term and you have been unable to claim for these hours.
- If your total amount of closed dates adds up to the equivalent of a full working week (or more) across the academic year then we will deduct these from the term where you have the most closed days.
