Surrey COVID-19 Summary

Cases and Rates

For more detail please see full report at www.surreycc.gov.uk/covidcases

Daily Cases

Change**

New cases in last 7 days

Rate for the last 7 days*

Data shown for time period Tuesday 23 March 2021 to Monday 29 March 2021

*Rate represents number of cases per 100,000 population for the last 7 days

**If there is an increase or decrease in cases that is less than 10% compared to the previous 7 days (16 March - 22 March) a grey arrow will indicate that the rate may have plateaued, but is not showing a significant rise or drop.

Change**

Cases (7 days)

Rate (7 days)

Change**	Area	Cases (7 days)	Rate (7 days)
↑	Epsom and Ewell	41	50.9
→	Spelthorne	44	44.1
↓	Runnymede	32	35.8
↓	Woking	33	32.7
→	Surrey Heath	20	22.4
↓	Reigate and Banstead	30	20.2
↓	Guildford	30	20.1
↓	Elmbridge	27	19.7
↓	Tandridge	17	19.3
↓	Mole Valley	15	17.2
↓	Waverley	17	13.5
↓	Surrey	306	25.6
→	South East	2,930	31.9
↓	England	27,233	48.5

All data is publicly available. Data is shown by specimen date - reporting delays mean data can be incomplete for the most recent days. For this reason the data shown is for the seven-day period ending four days prior to the publication date.

The rate is calculated daily by Surrey County Council Public Health data intelligence team using the ONS 2019 mid-year population estimates.

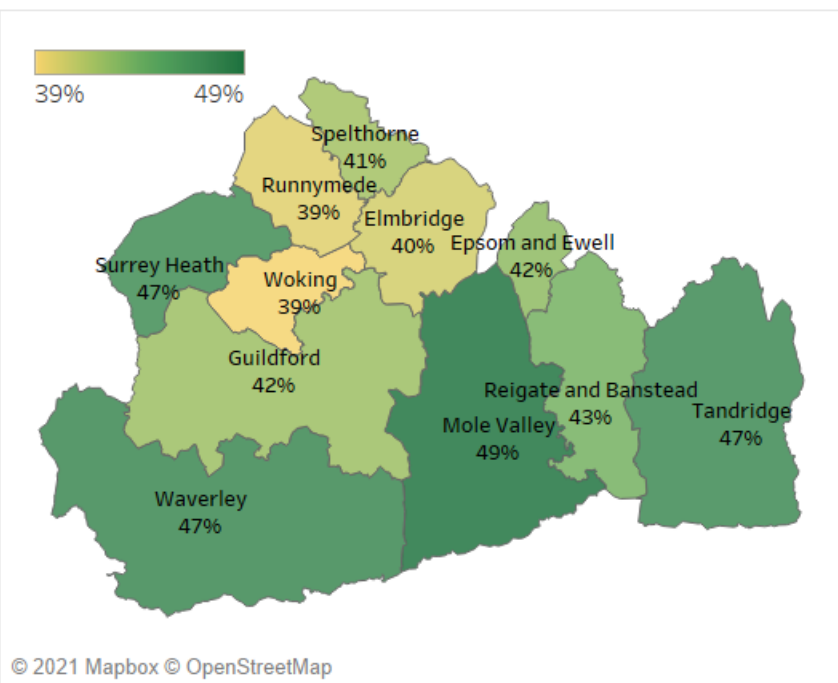

The 7-day average line on the chart is calculated using the average of cases for three days before, the date itself and the three days after any specific date. The average is not calculated for the most recent three dates as there is not enough data.

For more detail please refer to the Surrey COVID Intelligence Summary at www.surreycc.gov.uk/covidcases and coronavirus.data.gov.uk

Vaccinations

Data up to 28th March

Percentage of population who have had at least 1 dose of a vaccine

Elmbridge	40%
Epsom and Ewell	42%
Guildford	42%
Mole Valley	49%
Reigate and Banstead	43%
Runnymede	39%
Spelthorne	41%
Surrey Heath	47%
Tandridge	47%
Waverley	47%
Woking	39%

38,459 people in Surrey have received their first dose of a COVID-19 vaccination this week (22nd March to 28th March).

In total **558,860** people have received at least one dose of a vaccine (up to 28th March). This is **43%** of the population. **92%** of all people aged 60 or over in Surrey have received at least one dose of a vaccine

44% of all people in the South East have had at least 1 dose of a vaccine, and **42%** of people in England.

Groups currently eligible for a vaccine

- People aged 50 and over
- People who are clinically vulnerable and clinically extremely vulnerable
- People who live or work in care homes
- Health and social care workers
- People with a learning disability
- People who are a main carer for someone at high risk (clinically extremely vulnerable)

All data is publicly available at www.england.nhs.uk/statistics/statistical-work-areas/covid-19-vaccinations.

Vaccination figures are presented by date of vaccination as recorded on the National Immunisation Management Service (NIMS) database. Vaccination counts and populations by Lower Tier Local Authority (LTLA) are provided by Public Health England (PHE).

Surrey COVID-19 Summary Cases and Rates

Publication Date: Thursday
1 April 2021

All data is publicly available. Data is shown by Specimen Date and since these are incomplete for the most recent days, the period shown is for the seven day period ending five days prior to the publication date.

The rate is calculated daily by Surrey County Council Public Health Data Intelligence team using the ONS 2019 mid-year population estimates.

For more detail please refer to the [Surrey COVID Intelligence Summary](#) or the [Government Coronavirus Dashboard](#)
