Introduction

Welcome to this Directory of Essential Services from Surrey County Council.

We work to make Surrey a better place, through the wide range of services we're responsible for.

The majority of our budget is spent on looking after those people who need us most, through Adult Social Care and Children's Services.

But we know that our more visible services, like road maintenance, libraries, countryside management and community recycling centres, are the ones most people see.

Lots of what we do – particularly across Surrey Fire & Rescue Service, Trading Standards, and environmental services – is about keeping people safe and preventing or responding to serious incidents.

We're here for you.

This guide aims to give you the information you need about our services, how to report issues, how to get involved in your local area, and highlight support available to help with the cost of living.

For financial, welfare and wellbeing support, you can access information on our online support hub.

Visit www.surreycc.gov.uk/essential

If you're not able to find what you need on our online support hub, you might want to contact our community helpline, where members of the team will be happy to talk through your needs and point you in the right direction.

Call **0300 200 1008** (9am - 5pm, Monday to Friday, excluding bank holidays)

You can also head to your local library if you would prefer to speak to someone in person. Or complete an online community helpline enquiry form.

Warm Welcomes

You can stay as long as you like and each space offers something a little different. You don't need a library card to visit the warm welcome spaces in libraries either, just turn up.
