Business case, SOP, SIP, project or service, procedure, strategy or Service, that was impact assessed:

Hot strike and Hot strike plus

Summary of findings:

Communities are often aware that a fire has occurred nearby, conducting a hot strike or in the case of serious incidents, hot strike plus, may assist those members of the public to assess their own fire safety precautions and knowledge. Communities will respond positively to offers of assistance and advice which is sensitive, appropriate and well timed

Hot strike plus community events consideration will be given to provision of interpreters, leaflets in the appropriate language which may be required (CLG provide fire safety in the home leaflet in a variety of languages) or other alternative formats.

Summary of recommendations and key points of action plan:

If a member of the public requests a HFRC as a result of receiving a hot strike leaflet they would be responded to in a way that will address their specific needs and would be entitled to the specific advice and free alarms. We also have a new HFRC form, which will shortly be launched which will allow crews carrying out HFRC's to refer clients to other services for advice and assistance in other areas eg. Disabled services, befriending, home improvements etc
