All data is publicly available. Data is shown by specimen date - reporting delays mean data can be incomplete for the most recent days. For this reason the data shown is for the seven-day period ending four days prior to the publication date. The rate is calculated daily by Surrey County Council Public Health data intelligence team using the ONS 2019 mid-year population estimates. The 7-day average line on the chart is calculated using the average of cases for three days before, the date itself and the three days after any specific date. The average is not calculated for the most recent three dates as there is not enough data. For more detail please refer to the Surrey COVID Intelligence Summary at www.surreycc.gov.uk/covidcases and coronavirus.data.gov.uk

Hospital Admissions

There were **682** people admitted to hospital with COVID-19 in the last 7 days (16 November 2021 to 22 November 2021) in the South East.
This is **57** fewer admissions than the previous week (09 November 2021 to 15 November 2021).

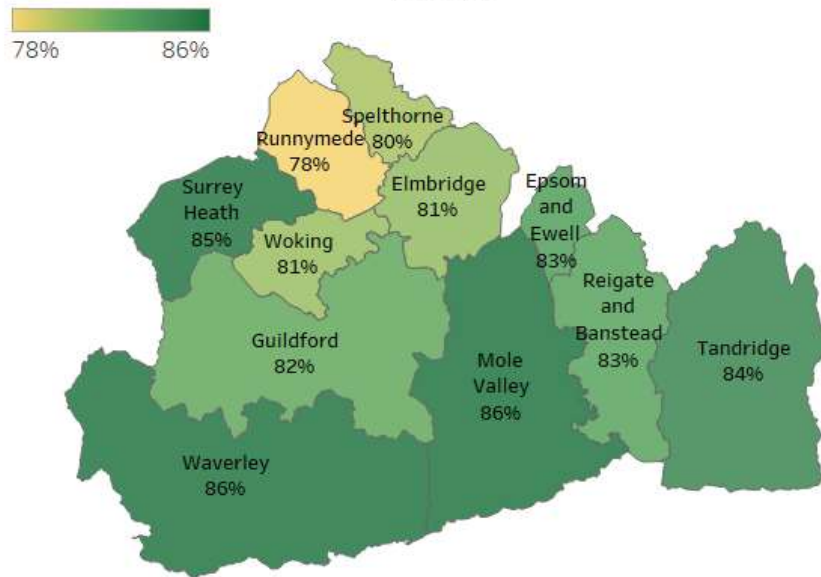

For a breakdown of hospital admissions by NHS Trust please see full report at www.surreycc.gov.uk/covidcases

For a breakdown of vaccinations by cohort, please see full report at www.surreycc.gov.uk/covidcases

Vaccinations

Data up to 23 November 2021

Percentage of 12+ population who have had at least 1 dose of a vaccine

	1st Dose Uptake	2nd Dose Uptake
Elmbridge	81%	74%
Epsom and Ewell	83%	76%
Guildford	82%	75%
Mole Valley	86%	79%
Reigate and Banstead	83%	76%
Runnymede	78%	72%
Spelthorne	80%	74%
Surrey Heath	85%	79%
Tandridge	84%	78%
Waverley	86%	79%
Woking	81%	74%

3,148 people in Surrey have received their first dose, and **2,606** have received their second dose of a COVID-19 vaccination in this week (17 November 2021 to 23 November 2021).

In total **930,025** people (**83%** of the 12+ population) have received at least one dose of a vaccine, and **855,581** people (**76%** of the 12+ population) have received two doses of a vaccine (up to 23 November 2021).

82% of all people in the South East have had at least 1 dose of a vaccine, and **76%** have had a second dose.

78% of all people in England have had at least 1 dose of a vaccine, and **71%** have had a second dose.

Note: For more information on who is eligible for a vaccine please see www.nhs.uk/conditions/coronavirus-covid-19/coronavirus-vaccination/who-can-get-the-vaccine/

All data is publicly available at www.england.nhs.uk/statistics/statistical-work-areas/covid-19-vaccinations.

Vaccination figures are presented by date of vaccination as recorded on the National Immunisation Management Service (NIMS) database. Vaccination counts and populations by Lower Tier Local Authority (LTLA) are provided by Public Health England (PHE).

Surrey COVID-19 Summary Cases and Rates

Publication Date: Thursday
25th November 2021

All data is publicly available. Data is shown by Specimen Date and since these are incomplete for the most recent days, the period shown is for the seven day period ending five days prior to the publication date.

The rate is calculated daily by Surrey County Council Public Health Data Intelligence team using the ONS 2019 mid-year population estimates.

For more detail please refer to the [Surrey COVID Intelligence Summary](#) or the [Government Coronavirus Dashboard](#)
