The government want Surrey to be led by a Mayor

To do this Surrey needs to divide into two unitary councils

They are also looking at three unitary councils

This is to save money and offer better value, stable finances and protect services

Simplifying services, with fewer points of contact to reduce confusion

Strengthening local communities and connecting people

A Mayor will be the elected leader and oversee the unitary councils

**Decision**

A Mayor knows the area best and will make decisions and implement services for Surrey to flourish

Surrey will no longer exist and will be run by the unitary councils, overseen by the Mayor
